

KPR-30

- Provides a complete solution for digital CCTV and audio in an IP network for recording, monitoring, reporting and security needs.
- Viconet is a single software application that controls:
 - Recorders - KPI/KPR Lines
 - Video/Audio transmitters - The VN LINE
- Vicon is deployed throughout the whole network site and utilizes the standard IP network - IAN, WAN or internet
- Simultaneous monitoring, playback and recording from anywhere to everywhere
- Built-in 4 channel Matrix output
